GAME CARD EVALUATION

Name _____

Be honest, be fair, if you are not sure; ask for help. For all Q & A's ask: did we learn it this week, would it be fun, challenging, or educational? Is this a card you would trade, or keep? Advise card creator what was well done and what needs improvement. Initial & score each Game Card. Enter scores on Card Boards.

Card design – do both sides have 'fill'? Are there multiple graphics? Are they well arranged? Can the questions be easily read? Are there unique formatting features [boarders, auto shapes, transparent, overlapping]? Consider color and cardboard. Are any graphics and questions related? Any original art? Do graphics reflect current themes? Do you have pictures of events in your life or current events?
